

WEIGHING WITHOUT LIMITS

The new SKALAPP is a highly advanced, fully automatic loading scale that can be installed on most types of older and newer wheel loaders and forklifts from a wide range of manufacturers.

Unlike other leading scales, SKALAPP unleashes its full power from day one by giving you access to its COMPLETE set of features for weighing a wide variety of bulk materials. No paywalls. No extra charges. Even if you don't utilize all that SKALAPP has to offer today, it stands ready to serve your ever expanding needs tomorrow.

SKALAPP doesn't put limits on your loading operations, it helps them grow.
