

4 LOAD CELLS PLATFORM in stainless steel

FOR MULTIPLE SOLUTIONS

*Indicator not included.

STRUCTURE

Robust and compact.
The scale is equipped with four hermetically sealed load cells to ensure reliable and optimal weighing.

PROTECTION

Stainless steel structure, with load cells IP68 and sum box IP66 accessible from the side area of the platform. Adjustable height thanks to its adjustable feet.

APPLICATIONS

Suitable for a wide range of applications, including storage, quality control, shipping and logistics, among others.

4 load cells stainless platform

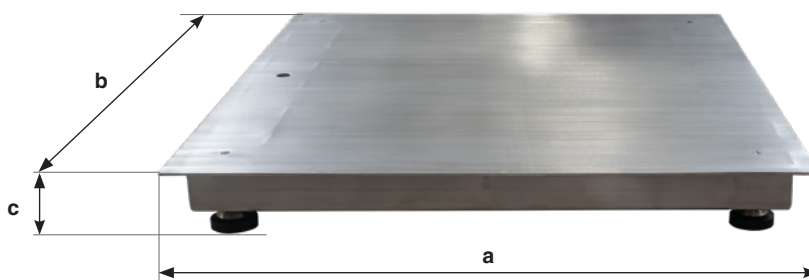

Dimensions (mm)

a	b	c (min.)	c (max.)
800	800	110	120
1500	1500	110	120
2000	1500	110	120

CHARACTERISTICS:

- 4 load cells stainless platform.
- It can be used in legal metrology.
- It can be installed on ground or pit.
- Smooth sheet of 4,5 mm thick.
- Structure of folded sheet.
- Load cells OIML R-60 C3, in stainless steel, IP68 protection.
- Stainless steel junction box, IP66 protection.
- Height-adjustable feet up to 10 mm.
- Output of 5 meters of cable included.
- Connector CUF7.
- Built-in bubble level.
